

Wi-Fi Smart Strip

User Manual

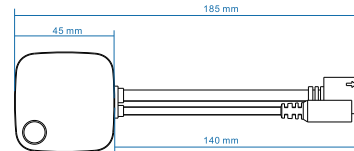

Features

- WIFI connect, mobile phone APP control, Android and IOS support
- Full range of RGB+W / RGB+CCT available
- Voice and intelligent speaker control
- 5-100% stepless dimming
- Timer switch
- Remote controllable after connecting to internet
- Music :External microphone receives sound

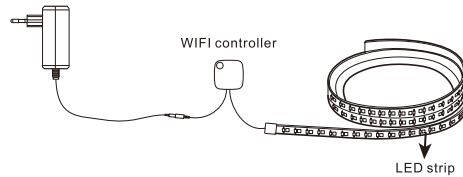

Parameters

Item.NO	Colour	Input Voltage	Current
SCWFMSS02-04	RGB+W	12~24Vdc	2A
SCWFMSS02-05	RGB+CCT	12~24Vdc	2A

Dimension

Wiring diagram

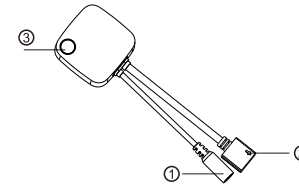

Installation instructions

- Use DC12/24V power supply.
- Install the WIFI controller correctly. Use 3M tape to fix it.
- Please unfold the LED strip to avoid the overheat issues. Please connect the cables of LED strip with the right position on the controller. Test the APP to check if it can control the LED strip correctly. If everything goes well, just keep going.
- Check and ensure the power supply, WIFI controller and LED strip are connected correctly.

Attentions

- Do not put any metal around the WIFI controller, which could blocked WIFI signal
- Ensure power supply and controller are connected correctly.
- The power supply output voltage should be same as LED strip working voltage.
- Do not cover anything on the surface of power supply, WIFI controller and LED strip.
- Ensure the connection is correct before powering.

Product functions diagram

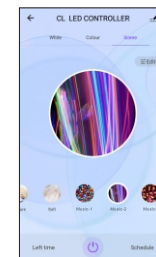

- DC12-24V input connection port
- Output connection port to connect to LED strip(4-6PIN female bracket/5PIN male PIN connector)
- Function buttons:
Switch on
Switch off
Long press for more than 5 seconds to reset

Functions:

- White: Start the "White" Ring Interface , and adjust the CCT and Brightness
- Color: Start the "Color" Ring Interface, and adjust the RGB color and Brightness, and you can also change the saturation of the color

- Scene: Start the "Scene" interface, in which there are different scenes mode to choose from, the last 3 modes are Music Mode, then the light is able to HEAR the voice around. For Music-1, it is music analog mode and the strip will light with rhythm whether or not the music is turned on.

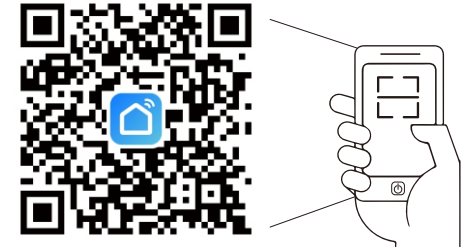

Download APP

- Search "Smart Life" from App store or Google play.

- Scan the QR code from the label or user manual.

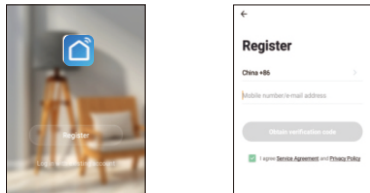

The APP is compatible with Android 4.0 and IOS 8.1 and higher version.

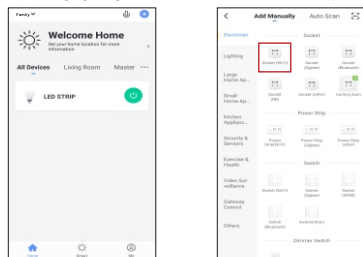

Log in / Register account number

Open the Smart Life APP, sign up for a new account or log in with an existing account.

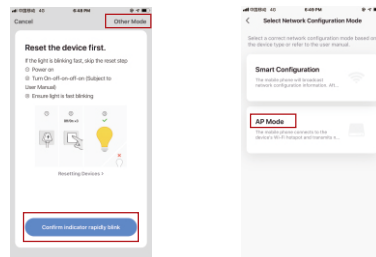

APP connection
