

iFlex Intense

iFlex Intense Flexible LED Strip light has the same properties as regular iFlex, however it incorporates 120 LEDs/m, double the amount on the standard iFlex strip light. This results in increased light output and also allows the product to be installed in tighter locations without causing “spotting” or bright spots.

Key Features:

- PLCC2 3528 Single colour LEDs
- LED Dimension - 3.5 x 2.8 x 1.9
- LED Spacing 8.3mm
- Strip Width 9mm
- 3M Adhesive Tape Supplied (indoor)
- Working Voltage 24V DC
- Power Consumption 9.6w/m
- 3 year warranty
